"Cristalli Profumati"

Tecnologia Oikos Fragrances

Naturale come un soffio d'aria pura

La tecnologia brevettata SFR (Solid Fragrance Release) permette di utilizzare fragranze, profumi e note odorose allo stato solido che vengono diffuse naturalmente, per semplice ventilazione. Il soffio d'aria generato lambisce la superficie della ricarica profumata e porta in atmosfera la profumazione senza uso di solventi, senza riscaldamento e senza nebulizzazione. La ventilazione naturale garantisce la massima qualità e gradevolezza della profumazione, con un rilascio controllato e programmato.

"Scented Crystals"

Oikos Fragrances Technology

The patented SFR technology (Solid Fragrance Release) allows the use of solid state fragrances, that are released naturally, by simple ventilation. A gentle blow, created by a small fan, brushes the surface of the perfumed refill and diffuses the fragrance in the air without heating and vaporizing it and without using solvents. And this natural ventilation, with the help of controlled release technology, guarantees best quality and pleasantness of scent diffusion.

«Ароматные кристаллы»

Технология Oikos Fragrances - Естественный как глоток свежего воздуха

Запатентованная технология SFR (Solid Fragrance Release) позволяет использовать духи и ароматы в твердом состоянии, благодаря чему распространение идет натуральным путем посредством простого выветривания. Поток воздуха, слегка касаясь душистой поверхности, наполняет помещение ароматом без использования растворителей, нагревания или распыления. Естественная вентиляция гарантирует максимальное качество и удовольствие от аромата благодаря программированной и контролируемой подаче.
