# DESDE 1962

Desde que se fundó INESLAM, en el 1962, esta empresa se ha caracterizado por su carácter innovador. En INESLAM la experiencia, la tecnología y el diseño son combinadas para dar forma a la luz. La amplia experiencia de más de 60 años fabricando iluminación, junto con la utilización de técnicas artesanas y tecnología moderna, y por otro lado la creatividad de un equipo de diseño compuesto por diseñadores, arquitectos y escultores, hace que la luz sea arquitectura y arte.

## *nuestramarca/ourbrand*

Desde que se fundó INESLAM, en el 1962, esta empresa se ha caracterizado por su carácter innovador. En INESLAM la experiencia, la tecnología y el diseño son combinadas para dar forma a la luz. La amplia experiencia de más de 60 años fabricando iluminación, junto con la utilización de técnicas artesanas y tecnología moderna, y por otro lado la creatividad de un equipo de diseño compuesto por diseñadores, arquitectos y escultores, hace que la luz sea arquitectura y arte.

Since the founding of INESLAM in 1962, the company has been characterised by its innovative character. At INESLAM, experience, technology and design are combined to give form to light. Our wide experience of manufacturing lighting over 58 years, together with the use of both craftsmanship and modern technology, combined with the creativity of a design team made up of designers, architects and sculptors, converts light into architecture and art.

Depuis la fondation d'INESLAM en 1962, l'entreprise a été caractérisée par son caractère Innovateur. À INESLAM, expérience, technologie et dessin sont combinés pour donner forme à la lumière. Notre vaste expérience de plus 58 ans en fabrication de lumières, avec l'utilisation conjointe de techniques artisanes et technologie moderne, combinées avec la créativité d'un équipe de dessin composé par dessinateurs, architectes et sculpteurs, fait de la lumière architecture et art.

Da quando è stata fondata INESLAM, en 1962, ci siamo caratterizzati per il nostro carattere innovativo. In INESLAM la esperienza, la tecnologia e design, se uniscono per dare forma alla luce. La vasta esperienza di oltre 60 anni nella produzione di illuminazione, insieme all'uso di tecniche artigianali e moderne tecnologie, più la creatività del nostro team di progettazione, architetti e scultori, facciamo che la luce sia architettura e arte.

# ILUMINA & DECORA

L I G H T I N G & D E C O R  
P L A S T E R · C O L L E C T I O N

Posibilidades de poder pintar o estucar el aplique integrandolo en la decoración a realizar. Inalterable al paso del tiempo y a factores ambientales. Para uso en interiores o exteriores, en áreas cubiertas. No conductor de la electricidad. Usted puede aplicar cualquier tipo de pintura, estuco, color, etc, utilizando una brocha o un spray ordinario de pintura. Asi de esta forma puede iluminar y decorar en concordancia, o si se prefiere, en contraste con la decoración de su hogar.

Possibilities to be able to paint or to lay the applique integrating in the decoration to realize Unalterable over time and environmental factors. For indoor or outdoor use, in covered areas. Not electrically conductive. You may apply any enamel, lacquer, or water based paint, using any brush or ordinary spray paint. You can illuminate and decorate to coordinate or contrast with your home decor. You can match any wall color you choose.

## iluminación integrada e invisible | invisible & integrated lighting

### instrucciones de instalación | installation instructions

#### PASO 1 / STEP 1 / PASSO 1 / PAS 1

Agujerear el techo o pared en función de la forma del foco empotrable.

Make a hole in the ceiling or wall based on the form (round or square).

Fare il foro sul tetto in funzione della forma del faretto.

Faire un trou en fonction de la forme du foyer encastrerable.

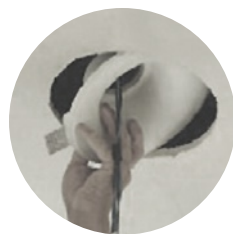

#### PASO 5 / STEP 5 / PASSO 5 / PAS 5

Masillar y rellenar las juntas de la cavidad con pasta de agarre y pasta de juntas. Lijar y pintar.

Fill up the joints of the cavity with plaster sealant to make the surface smooth. Sand and paint.

Stuccare e riempire le giunte delle cavità con el gesso. Rasare e pitturare.

Poser de mastic et remplir les assemblées de la cavité avec pâte de saisis et pâte d'assemblé. Poncer et peindre.

#### PASO 2 / STEP 2 / PASSO 2 / PAS 2

Posicionar el empotrable de escayola dentro de la cavidad. Insert the plaster spot into the cavity.

Posizionare il faretto di gesso dentro la cavità fatta.

Positoner l'encastrerable de plâtre dans la cavité.

#### PASO 6 / STEP 6 / PASSO 6 / PAS 6

Hacer las conexiones eléctricas y colocar la bombilla. Connect the wires and insert the bulb.

Fare le connessioni elettriche e inserire la lampadina.

Faire les connexions électriques et poser l'ampoule.

#### PASO 3 / STEP 3 / PASSO 3 / PAS 3

Colocar las escuadras del empotrable dentro de la cavidad. Introduce the brackets of the plaster spot into the cavity.

Collocare la squadretta perforata del faretto dentro la cavità.

Placer les carrés de l'encastrerable dans la cavité.

#### PASO 4 / STEP 4 / PASSO 4 / PAS 4

Fijar el empotrable de escayola al techo/pared perforando la escuadra con tornillos.

Fix the plaster spot to the ceiling or wall with screws.

Fissare il faretto di gesso nel tetto/parete perforando la squadretta perforata con viti.

Fixer l'encastrerable de plâtre au plafond/paroi en perforant le carré avec le vis.

## (ES) Iluminación invisible e integrada

Línea de iluminación técnica adaptable a los diversos ambientes y espacios. Iluminación pensada y diseñada para integrarse en paredes y techos de pladur con el objetivo de obtener una iluminación invisible y perfectamente integrada en el ambiente. Su fabricación en escayola y aleaciones con componentes especiales permiten poderse pintar del mismo tono y color de las paredes y techos consiguiendo una completa integración de la luminaria en las superficies donde se colocan ofreciendo un aspecto invisible. El material utilizado es un material especial "Inesplast" que ha sido especialmente desarrollado y investigado para que a las características propias de la escayola se le añadan otras propiedades como la resistencia al calor y a los shocks térmicos, y una alta dureza y resistencia. La variedad de las formas y los elementos interiores LED completan las necesidades exigidas por decoradores, interioristas, arquitecturas e ingenierías. Esta colección exalta la belleza y pureza del blanco integrada plenamente en la decoración. Con la ayuda de un poco de escayola en las juntas lograremos que la luminaria se convierta en invisible y forme parte del techo o pared. Aparte de conseguir la plena integración de la luz, este material aventaja a otros materiales en que es inalterable al paso del tiempo y a factores ambientales, no es conductor de la electricidad, no es inflamable, no es tóxico y se puede lavar o pintar de nuevo con el paso del tiempo.

## (FR) Illumination invisible et intégrée

Ligne d'illumination technique adaptable aux différents atmosphères et espaces. Illumination pensée et conçue pour s'intégrer dans des parois et des plafonds de pladur avec le but d'obtenir une illumination invisible et parfaitement intégrée dans l'atmosphère. Sa fabrication en plâtre et alliages avec des composants spéciaux permet de pouvoir peindre du même ton et couleur les parois et les plafonds en obtenant une complète intégration du luminaire dans les surfaces où ils sont placés en offrant un aspect invisible. Le matériel utilisé est un matériel spécial « Inesplast » qui a été spécialement développé et sujet à des recherches pour qu'aux caractéristiques propres du plâtre on ajoute d'autres propriétés comme la résistance à la chaleur et aux chocs thermiques, et une haute dureté et résistance. La variété des manières et les éléments intérieurs LED, complète les nécessités exigées par des décorateurs, dessinateurs d'intérieurs, architectures et ingénieries. Cette collection exalte la beauté et la pureté du blanc intégrée pleinement dans la décoration. Avec l'aide d'un peu de plâtre dans les assemblées, nous obtiendrons que le luminaire se transforme en invisible et il fasse partie du plafond ou paroi. En plus d'obtenir la pleine intégration de la lumière, ce matériel favorise à d'autres matériels dans le sens qu'il est invariable au pas du temps et aux facteurs environnementaux, il n'est pas conducteur de l'électricité, il n'est pas inflammable, il n'est pas toxique et il peut se laver ou peindre de nouveau au fil du temps.

## (EN) Invisible & integrated lighting

A line of technical illumination and lighting adaptable for all spaces and environments

Lighting thought and designed for wall and ceiling integration, with the objective of gaining invisible illumination and perfectly integrated spaces. Because the lighting fixtures are made of special-component plaster and alloys, walls and ceilings can be painted the same colours and tones, fusing complete lighting integration on surfaces where the lights are placed, and creating an almost invisible lighting aspect. Inesplast® is the material used in this series and has been specially researched and developed so that the plaster's own characteristics are added with other benefits such as heat resistance and thermal shock, as well as long-lasting resistance and endurance. The variety of shapes, forms and interior elements can utilise LED lighting to satisfy the needs of decorators, interior designers, architects and engineers. This collection exalts the beauty and purity of white when fully integrated in décor. With the help of just a little plasterwork, we are able to make the light become almost invisible, becoming a part of the wall of ceiling. In addition to obtaining full light integration, this material also aids other materials because it will not change with time or due to environmental factors, it is non-conductive, inflammable, non-toxic, and can be washed or repainted.

## (IT) Illuminazione invisibile e integrata

Línea di illuminazione tecnica adattabile a diversi ambienti e spazi. Illuminazione pensata e progettata per essere integrata nelle pareti e soffitti di cartongesso con l'obiettivo di ottenere un'illuminazione invisibile e perfettamente integrata nell'ambiente. La sua lavorazione in gesso e leghe con componenti speciali ne consentono la verniciatura nella stessa tonalità e colore delle pareti e dei soffitti, ottenendo una completa integrazione dell'apparecchio nelle superfici deve essere posizionato, offrendo un aspetto invisibile. Il materiale utilizzato è uno speciale "INESPLAST" che è stato sviluppato e ricercato affinché alle caratteristiche dell'intonaco si aggiungano altre proprietà come la resistenza al calore e agli shock termici e l'elevata durezza e resistenza. La varietà delle forme e degli elementi interni a LED completa le esigenze richieste da arredatori d'interni, architetti e ingegneri. Questa collezione mette in risalto la bellezza e purezza del bianco completamente integrate nel decoro e con un po' di intonaco nelle fughe renderemo invisibile la lampada e faremo parte del soffitto o della parete. Oltre a raggiungere la piena integrazione della luce, questo materiale è superiore ad altri materiali in quanto è inalterabile nel tempo e nei fattori ambientali, non è conduttivo, non è infiammabile, non è tossico e può essere lavato o riverniciato nel tempo.

REFERENCIA	DESCRIPCIÓN	W	COLOR	LM	V	Hz
X1A7	MODULO LED MR16/GU10	7	3000°K	650	220-240	50/60

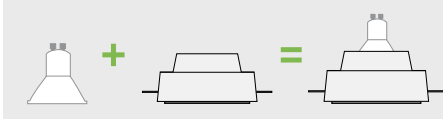

### MODULO LED IP20 SLIM

Módulo LED super compacto, de reducida altura y máxima eficiencia, IP20 compatible con bombilla estandar MR16/GU10. Super compact LED module with reduced height and maximum efficiency, IP20 compatible with standard MR16/GU10 bulbs.

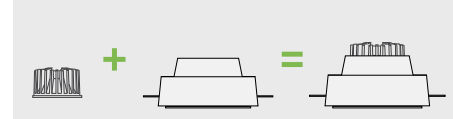

Compatible para el 100% de nuestros empotrables de escayola integrados e invisibles. 100% compatible for our integrated and invisible plaster recesses.

Brillante luz y consistente color de temperatura gracias a su CITIZEN COB LED. Brilliant light output powered by CITIZEN COB LED with consistent color temperature.

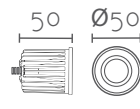

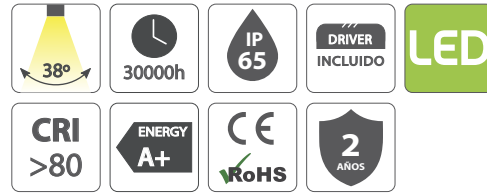

#### INSTALACIÓN MR16/GU10

#### INSTALACIÓN MODULO X1A7

### MODULO LED IP65

REFERENCIA	DESCRIPCIÓN	W	COLOR	LM	V	Hz
X2A9	MODULO LED MR16/GU10	9	3000°K	800	220-240	50/60

### MODULO LED IP65

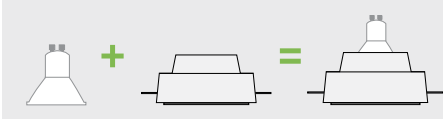

Nuevo diseño Módulo LED Compacto IP65 compatible con bombilla estandar MR16/GU10. New compact IP65 modulated design compatible with standard MR16/GU10 kits.

La solución perfecta para cualquier instalación que requiera IP65. The perfect solution for any installation that requires IP65.

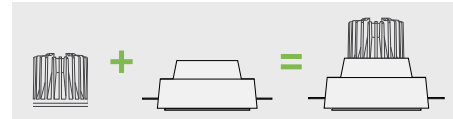

Compatible para una gran variedad de nuestros empotrables de escayola integrados e invisibles. Compatible for a wide variety of our integrated and invisible plaster recesses.

Brillante luz y consistente color de temperatura gracias a su CITIZEN COB LED. Brilliant light output powered by CITIZEN COB LED with consistent color temperature.

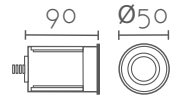

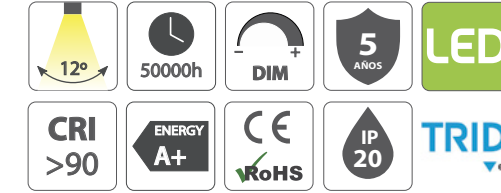

#### INSTALACIÓN MR16/GU10

#### INSTALACIÓN MODULO X2A9
