PHILOSOPHY

Ifari®, breathtakingly beautiful lighting developed by combining European high-end materials with eccentric Dutch design.

The Ifari collection was created from various sources of inspiration by world's top fashion designers and dance-music artists channelling their creativity into hand-crafted lighting. The result is cosmopolitan, luxury lighting that is unique. Lighting with a highly progressive, eclectic, artistic look with great beauty and simplicity.

Our lighting creations are entirely handmade, manufactured in West-Europe using the highest quality metal and glass and crystals from Swarovski®, with razor sharp attention to detail. The aim is to give both modern and classic interiors an individual, almost revolutionary look, with designs that play with light just as they play with your imagination.

In this catalogue you will find inspirational lighting ideas that will totally transform your own interior design with our fascinating collection. The catalogue will also give you an impression of the Ifari concept. We are able to adjust the collection according to your wishes in various sizes and colours with the high-quality materials you can expect from us. We enjoy to realising completely new designs developed in close collaboration with architects or interior designers, so please do challenge us. A strong customer commitment is our base for creating stunning projects together.

Always be up to date with the latest news and updates on our website Ifari.com or follow us on social media. Also, please visit our Inspiration Centre.

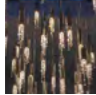

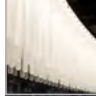

Be inspired, extraordinary lighting for fascinating people.

On behalf of team Ifari,

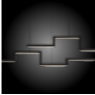

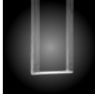

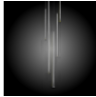

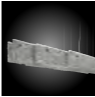

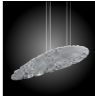

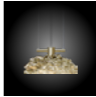

Kind regards,

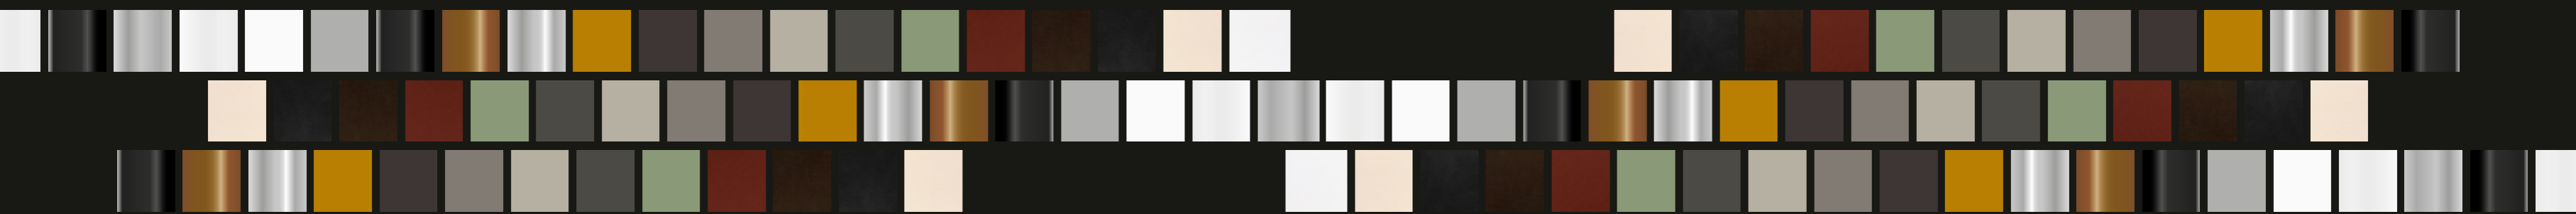

Frank Hendriks
